

BLUE PLANET ANNOUNCES INDUSTRY RELIEF INITIATIVE

Attention all Production Personnel who are currently out of work - We are hiring everyone!

At Blue Planet, we are committed to assisting in any way possible during the Covid-19 pandemic. This includes guaranteeing all our employees their full pay rate throughout the duration of this crisis, as well as concentrating on helping our friends, our family, and our customers within the industry get through these trying times.

While most entertainment venues, churches, schools etc are closing or already closed, Blue Planet will be using this time to improve our facility, increase inventory, implement new technology improvements, and add additional staff. We feel there are many venues such as nightclubs, bars and many other spaces who will most likely be utilizing their down time to clean and streamline their operations as well. This may include repairs, lamps, cables, new fixtures, curtains, flooring or whatever else needed to get their production back to 100%.

With our primary focus being Sales and Service, we are able to extend the following offer to all production personnel needing another option to generate cash flow:

Reach out to anyone and everyone in your area who may need production related items or services including lighting, audio, video, rigging, staging, and special fx. Once you have a lead generated, contact Blue Planet and we will create a quote for you to send to your new client. When you land the sale, that sale as well as any future orders from that client during the Covid-19 crisis will be logged under your name, and a large commission will be paid to you for each transaction you bring in. You will receive a share of the profit on your sales, while all remaining profit, (Other than the cost to process), will go to **Behind the Scenes** to assist others who are seriously ill or injured within our industry.

This can all be done remotely and will enable you to offer our extensive line of production gear and accessories to your new clients. You'll also have Blue Planet's industry leading customer service and support backing your sales. Who knows, this temporary source of income could turn into a full time steady and reliable source of income even after the industry resumes as you could become a full-time remote salesperson for Blue Planet.

For more information and details, contact Mike Gormley at info@blueplanetlighting.com

Stay Safe and Healthy Everyone!
